1.	Shreem Electronics	Jaysinghpur	14/10/2019	Ms . Pawar S.S. Ms.Patil A. A.	S.E.,T.E.,B.E.
2.	HF Flex	Vita	30/01/2019	Mrs. Patil A.C.	S.E.,T.E.,B.E.

Electronics and Telecommunication Engineering

### Industrial Visit Report

#### Industrial Visit : Shreem Electronics

The department of Electronics & Telecommunication Engineering of Jaywant College of Engineering and Management organized a one day industrial visit to Shreem Electronics, Jaysinghpur on Monday, 14 October 2019. All Third year and Final year students along with two faculty members, Ms. Pawar S.S. and Mr. Suryanwanshi S.S. of E&TC department visited to Shreem electronics, to understand actual environment of the industry, latest demanding technologies. Shreem electronics provide wide range of medium and high voltage equipments like capacitors, MV Switchgear, control & relay panels, lightening arrestors and other measuring / monitoring devices. Shreem also offers turnkey solutions for capacitor banks and substations across various voltage classes.

We reached company at sharp 12:00 pm. The session was delivered in two batches 1:00 pm to 2:30 pm. and 3:00 to 4:30 pm. The technical head of the Shreem electronics conducted very informative sessions to the students. In first session they actually introduced their company achieved domestic market leadership in the capacitor / reactive power compensation market and has built a strong presence in turnkey project execution for various state electricity utilities..

In second session, they motivated to the students to select their appropriate domain and area of interest. He guided about latest technologies & increasing demands of the electric energy have led to construction of more power plants, substations and transmission lines. But the

conventional transmission systems are unable to manage the control requirements of the complicated interconnections and variable power flow.

. The session was concluded with Question – Answers. All students have given nice response to them by asking different questions and all doubts of the students was cleared by the head of the Shreem Electronics. At the end of the session, all students were satisfied. So, it was an informative, interesting and successful visit.

The Students had a good learning experience in one day and it really benefited them to understand the work culture in an organization, create awareness about corporate standards and practices and their role as a future technocrat contributing for the development of the nation. It helps to students to prepare for their entry to the IT industry. It also helps to bridge the gap between industry and academia.

We express our thanks to technical head and team members of Shreem electronics who spent their valuable time with us. We also thank to respected Principal and HOD sir who motivate and support to arrange such a informative programs.
